

土地の面積を求めて、a や ha でも表しましょう。 **こたえ**

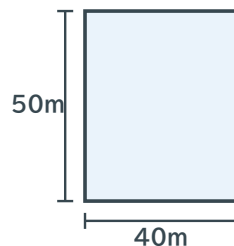

1

$$40 \times 10 = 400 \text{ m}^2$$

$$= 4 \text{ a}$$

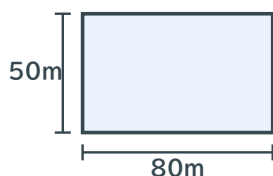

4

$$50 \times 40 = 2000 \text{ m}^2$$

$$= 20 \text{ a}$$

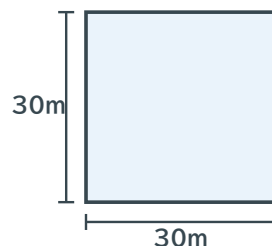

2

$$50 \times 80 = 4000 \text{ m}^2$$

$$= 40 \text{ a}$$

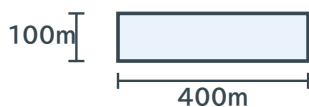

5

$$30 \times 30 = 900 \text{ m}^2$$

$$= 9 \text{ a}$$

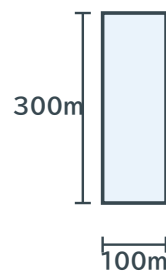

3

$$100 \times 400 = 40000 \text{ m}^2$$

$$= 4 \text{ ha}$$

6

$$300 \times 100 = 30000 \text{ m}^2$$

$$= 3 \text{ ha}$$
